REPORT TO NATIONAL COMMITTEE MEETING 1970.

Having been asked specifically to prepare this report under the four headings of Activities, Plans, Problems and Issues, we ask indulgence that we have only created two of the headings sought but feel these are really inclusive of the others.

1. ACTIVITIES:

It is a fine thing once a year that we are asked to sit quietly to recall and evaluate its activities. That they have been activities is certain, that they were achievements under God's use of us is our prayer as we glance backward.

We would have wished the year to have been spent in the exciting involvement in the ecumenical togetherness with which it began, but the last few months culminated some four years of heart-searching and sheer hard work as we determined the use of the monies held in trust following the sale of the 'Wybalena' Hostel.

We would sound a note of warning here to any States who may feel bricks and mortar a necessary badge of practical ecumenism. When the need has passed or the cost of maintaining a project becomes too great, then you are left, as an ecumenical group, with the disposition of money. Money is not the root of all evil but, had the Spirit of Christ not bound us together in love, enthusiasms, temperaments and just plain personal preferences could have blinded any of us to the need to fulfil the trust we held on behalf of the women of our State. We can only say - even with the probability of litigation through the Equity Court still to come - God can and does guide us if we allow Him.

BRANCHES DAY in New South Wales has now become traditionally the first meeting of the year and is a source of inspiration as members of the suburban branches and representatives of country branches come together in discussion and fellowship - with the informality of a basket lunch breaking down many barriers. This day is a vital sharing experience, where many local problems can at least be aired if not solved. (To quote from our March Newsletter 'If only we could capture the spirit of unity of that meeting, send samples far and wide and store some for use when we feel that we are not being as effective as we should!')

CITY MEETINGS. It has been particularly hard to encourage the members of city churches to come together, let alone plan meetings for the Special Days. However, during the term of her husband's ministry as guest preacher at Pitt Street Congregational Church, our beloved American friend, Myrna Buschmeyer, convened the original meeting of city church representatives and we are thrilled indeed that

since World Community Day 1968, a small committee has come together to plan Special Day Services. It is not our policy to encourage women from the suburban areas to attend these services but to regard the city as a group of women of varying denominations who need to know and understand each other.

ROMAN CATHOLIC and LUTHERAN participation this year has given us a feeling of joyous completeness. For many years we have had representatives of Holy Trinity Lutheran Church, and indeed Mrs. C.W. Stolz, now a Life Member, has held many offices over the years. This year, however, the newly united Lutheran Women of Australia have sent along two young and enthusiastic Observers, with a view to full representation.

The value of Special Day Services cannot be underestimated, for it was at a Fellowship Day Service at Lane Cove-Longueville last July that one of our well-known A.E.C. T.V. and Radio personalities, Mary Rossi, went along with a Roman Catholic friend - became tremendously moved by the whole service and discussion; became enthusiastic at its outreach; became excited at the thought of full Roman Catholic participation through their women. Being Mary Rossi and a member of the Archdiocesan Commission for Ecumenism of the Roman Catholic Church, her interest became action; the Bishop approved; the Commission wrote seeking permission to send Observers to W.I.C.C. We now have Sister Helen Herlihy of the Convent of the Sacred Heart, Rose Bay, and Mrs. Joan Curtin (the friend who introduced Mary Rossi to Fellowship Day) as Observers, with a view to their becoming full representatives this year.

Rev. M.A. Thomas from Bangalore, India, that noted Priest of the Matoma Syrian Church, talked with us over coffee one morning on THE ROLE OF WOMEN IN INDIA TODAY, with particular emphasis on the involvement - and lack of involvement - of Christian women. A suggestion came from this meeting that perhaps regular communication between our Council and some similar body in India would prove very enriching and give us greater understanding of world problems from a woman's viewpoint.

## 2. P L A N S:

Plans? Well, what does God want of us as a Council? We live in a wonderful time and feel a sense of deep gratitude to Him as we experience to some degree at least, the fulfilment of our first-stated aim "... fellowship and co-operation between women of all Branches of the Christian Church." We have travelled far this year to country cities, towns, local suburban areas, Sydney city itself, and the interesting thing we are realising is that, after 38 years of trying to look down from the Council to the pew, our pew members are shouting to us loudly 'Come, join us out here where we are united.' In area after area the pew members themselves, feeling the urgent need for greater fellowship and communion, have come together as inter-church groups and only then have they felt the necessity to link

themselves with other similar groups throughout the State by membership of this Council.

AND SO, at the end of 1969, we pause to give praise and glory to God that church women are finding within themselves a very definite need one for the other, no matter what their denomination, as they seek for greater understanding and avenues of service. Our plans are to be used as and when He needs us.
