

Holy Orders, I have every  
hope that he will  
be successful in his  
application for a Synodical

William Newbery M.A.  
(Late Scholar Pet. Coll. Camb.)

The Grammar School,  
Sydney

March 20th 1854

S. Taylor has been the  
head boy in Mathematics  
during the last year, &  
has been making a special  
study of them for about  
that time. From the progress  
he has made in the time,  
I look forward with confi-  
dence to seeing his name  
among the Wranglers, should  
he continue to make Mathe-  
matics his subject in Honours.  
By the time he leaves us

he will have read the  
ordinary course of Mathematics  
up to Differential &  
Integral Calculus with  
possibly some Analytical  
Statics, & should therefore  
have a very fair start  
in his work.

I have great pleasure  
in endorsing all that  
Mr. Weyall has said  
of his personal character;  
as the son of one of  
the hardest working &  
most respected clergy  
of this city, & as an  
intending candidate for
