WYCLIFFE LODGE,
OXFORD.

My dear Sir I think it very probable
from what you say that Melbourne w^d. suit you.
Dr. Gore has not got out there yet & he does not wish
anyone to be sent out until he has looked round
& seen what he needs - I think that the best thing
you c^d. do as a preliminary measure w^d. be to ask
the Bk. of Manchester what he thinks about yr. prospects
in Melbourne - Meanwhile you might keep
your eyes open in other directions, e.g. India, where

possibly you might hear of an Educational post. Your
experience is, I suppose not very great at present, but
God will order things right for you, if you throw yourself
entirely on Him. It must be very disappointing
you to be struck down at the beginning of work.

There is a little book on the colonies pub. by Messrs
Silon, Cornhill - E.C. - possibly if you tell them
I care they w^d. send you a copy - you I think
know all particulars about climate &c -

I wish to help you more definitely - If you
settle to go either to Melbourne or Birmingham I will write you
a note of introduction - R. A. Robinson
