Barnwell Grosford  
26. Oct 1893

My Lord:

I find a considerable  
number of letters chiefly  
from the Bishops of  
Germany. New Zealand  
Melbourne. Newcastle.

which I shall be very pleased  
to let your Lordship have  
to make use of. They are  
interesting to me. and I  
am quite sure you will  
find <sup>them</sup> very much so.

There is also a diary of  
my Grandfather's first  
voyage out here in 1829  
which may also interest  
you.

They would be far too large  
a parcel to go by post  
I am  
The Right Reverend  
The Lord Bishop of Newcastle

but I could leave them  
somewhere in Mailand  
unless you can tell me  
of a better way, by which  
to forward them.  
I have also numerous private  
letters of his, from his wife  
to others, which I should  
have no objection to your  
looking over, but do not  
expect they would be of  
so much use: as the  
history of the Church, and  
they take so long, to go through  
to find out which are  
useful. that I can't get  
them done. I expect your  
chief trouble, will be in getting  
his replies re. to these letters  
of the Bishops. Trusting that  
these will prove useful.

I am my Dear  
Yours. obediently R. B. Boydell
