INDIGENOUS LANGUAGE FACT SHEET

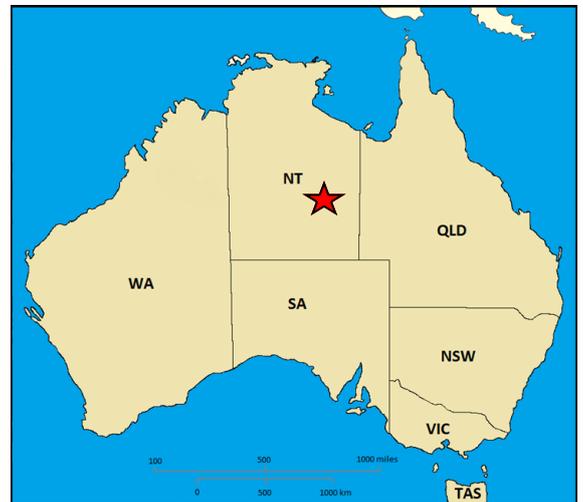

Alyawarr

General Language Information

Alyawarr is a language of Central Australia with approximately 1,500 speakers located approximately 300km north east of Alice Springs. According to the 2001 Census the Alyawarr language has the sixth largest number of speakers of any of the traditional Aboriginal languages (excluding creole languages) making it a large and viable language.

The Alyawarr people have maintained a strong affiliation with their traditional country region with most speakers living in small remote outstations, hunting and gathering bush foods. There has been limited interference by other cultures therefore their language remains relatively preserved, with a young speaking population.

Here is John 3:16 in Alyawarr:

***“Altyerr ingkerrenhek artewentyel
