A. G. Matthews' *Walker Revised*

Supplementary Index  
of 'Intruders' and others

Compiled by

Explanatory Note

The Rev. A. G. Matthews' twin volumes, *Calamy Revised* and *Walker Revised*, are not only indispensable to every student working on ecclesiastical history of the mid-seventeenth century, but they are indissolubly linked.

*Walker Revised*, Mr. Matthews' second volume of clerical biographies, demands far more from the research student than does *Calamy Revised*, by reason of the limited index which it carries and much of its wealth of information is easily missed. Only the names of Sufferers are indexed. In addition there are upwards of 4,000 names of Ejected ministers and others which are not indexed. In more than 1,500 cases additional or revised information is given about men who have separate biographical articles in Mr. Matthews' earlier work, *Calamy Revised*.

The object of the present index is to make this information readily accessible.

The index is an index of names and not an index of persons. Thus "Allen, H., 189, 302" may be references to the same person or to two different persons bearing the same name and initial.

Where an asterisk \* is attached to the Christian name or initial, the person is the subject of an article in *Calamy Revised*; where the page number has an asterisk \* that reference only is to a person who is the subject of an article in *Calamy Revised*.

All references are to pages in *Walker Revised*.

We are indebted to the Clarendon Press, the publishers of *Walker Revised* (1948), and to the Rev. A. G. Matthews for their ready consent to

the publication of this Index. We are indebted also to the Rev. Charles E. Surman for its compilation, and he would express his gratitude to Mr. Matthews for many personal kindnesses and also for checking the Index when it was first in preparation some years ago.

Users of this Index will be interested to know that Mr. Surman has also prepared an index of places to *Walker Revised*. He has deposited a copy of this in Dr. Williams's Library, where it may be consulted by readers.
